# Supporting Students in Distress

SpACE Teams and Proactive Planning for our  
Most Fragile and Dysregulated Students

MESPA 2020

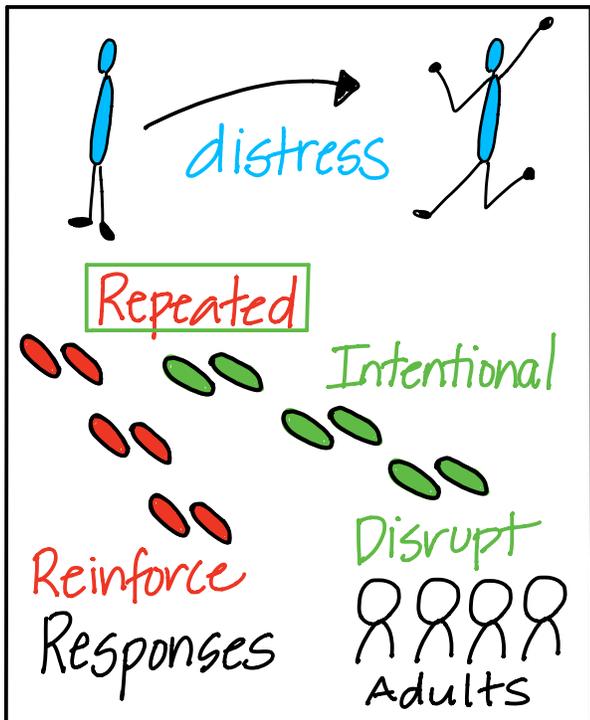

February 6, 2020

Presented by:

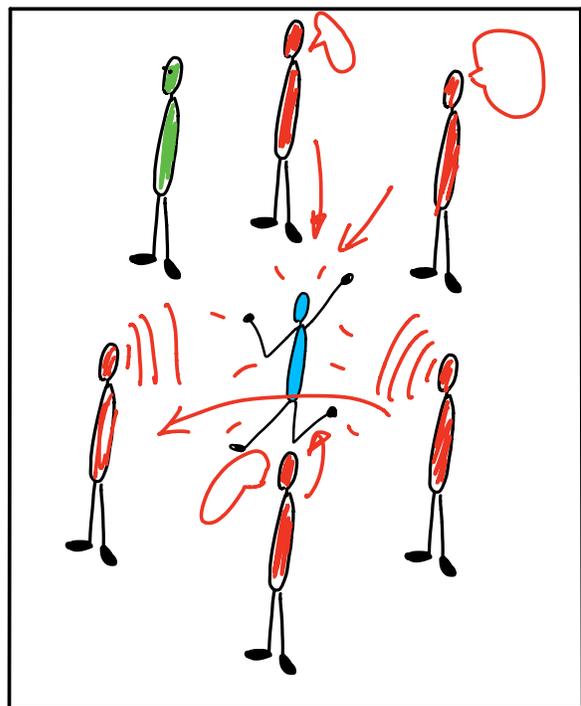

Dr. Amy Reed, Nancy Burns & Jacki Brickman

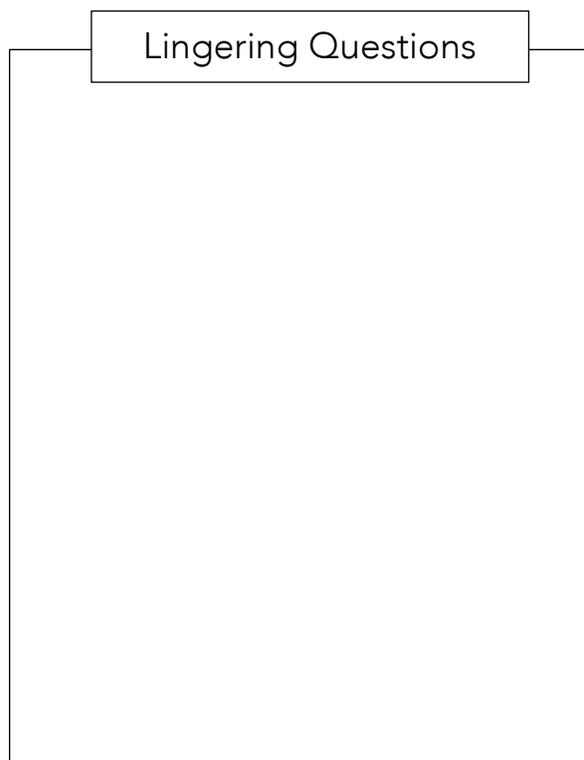

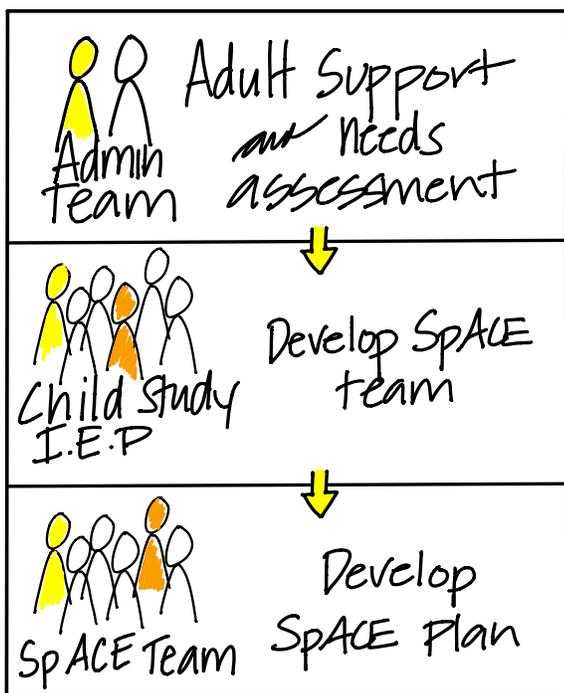

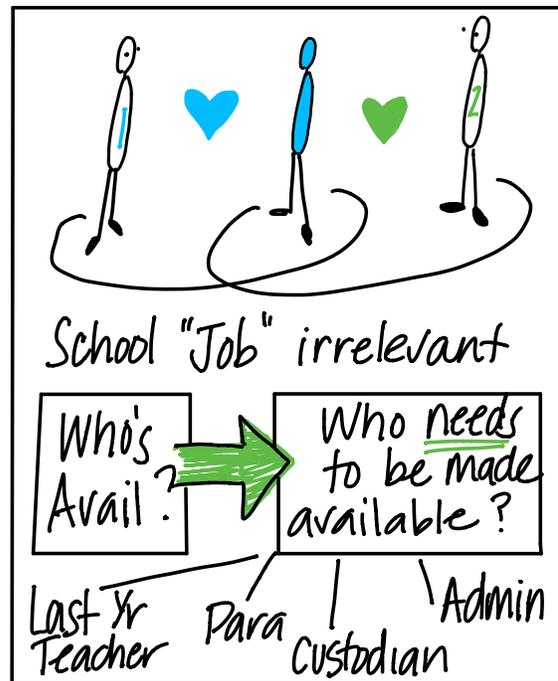

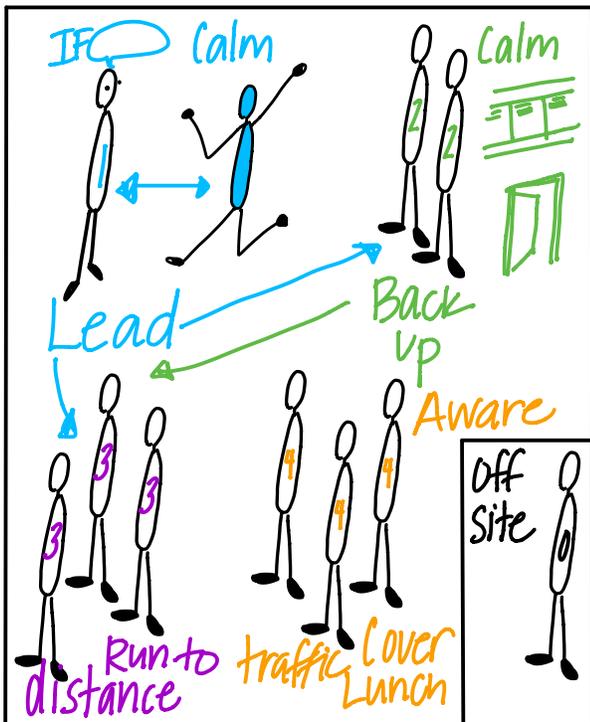

Developed by  
Nancy Burns & Jacki Brickman

Who comes to mind?

## Our Approach

The Catalyst Approach™ is a comprehensive professional development and implementation model developed by creative partners Nancy Burns and Jacki Brickman. Based on their observations in more than 50,000 classrooms and school-wide common spaces The Catalyst Approach™ includes a suite of more than 45 courses, coaching components, leadership development, and systems support that accelerates deep implementation of skills that lead to the creation of improved classroom and school leadership, relationships, and culture.

## Our Mission

Empowering leaders to strengthen relationships and create cultures where people propel each other to learn and grow while embracing who they are.

## Our Vision

Every student is surrounded by leaders who understand, nurture, inspire and support them.

## Our Core Values

- ◆ Opportunities to lead are everywhere
- ◆ Make connections
- ◆ Be a champion of equity
- ◆ Speak up
- ◆ Persevere and problem solve
- ◆ Serve and inspire
- ◆ Set the bar high for quality services and meet it – every single time

## Our Founders – Nancy and Jacki

Nancy and Jacki have supported educators together for more than 20 years. While each owns an individual company, together their unique relationship allows them to be collaborators and creative partners instead of competitors. Together, Nancy and Jacki work to create curriculum and develop systems to support school leaders in reaching new heights. They have been recognized locally and nationally for their work with children and educators. Nancy and Jacki specifically focus their curiosity on looking for ways to reduce and disrupt patterns of inequity and frustration and for students and teachers by creating pathways that foster even more independence and mutual understanding.
